Contract lead time 6-8 weeks sampling, 8-10 weeks production from receipt of 50% deposit and confirmed order.

Mille Feuilles Technical Sheet

Custom Submittal Form

We thrive on creative conversations and love to be challenged, this combined with our intimate knowledge of colour, printing and weaving allows us to tackle almost any customisation project. With simple instruction on colour we can adapt the palette of a design to match any interior scheme.

Colours

We can easily alter the colours of our prints to adapt them for a particular scheme. We require guidance on colour from any source, such as fabric cutting, pantone or paint swatch references.

Base Qualities

We can alter the composition of our fabrics to make them more suitable for a given use. Whether we are printing onto a more durable ground for upholstery, Trevira or vinyl for flame retardancy, polyester for outdoor use, we apply the same care and attention.

Mille Feuilles Technical Sheet

IMPORTANT HANGING INFORMATION

Before you start please ensure the following:

- The wallcoverings are as ordered as specified, as labelled (identification samples available immediately)
- You have sufficient material to complete the job in the same batch
- Batch numbers are identical never mix batches on the wall, never in fill with off-cuts
- The correct adhesive for your individual site circumstances
- Adequate site conditions good lighting for correct inspection, minimum ambient temperature of 10°C. Good ventilation & clean working conditions.
- Avoid excessive ambient temperatures radiators should ideally be removed before and for the 24 hours after hanging. If this is not possible they must be turned off and kept off until the wallcovering has fully dried.

Mille Feuilles Technical Sheet

SURFACE PREPARATION

Correct identification of surfaces, and the appropriate preparation is critical to successful hanging. All surfaces should be:

- o **Clean** Remove all surface contamination, e.g dirt, grease and pigmented marks, eg felt pen etc. Wash off using a detergent solution, rinse and allow to dry thoroughly.
- Sound & Even Free of flaking paint, old wallpaper/backing. Evidence of previous adhesive should be removed with hot water. Weak skims/ surfaces and uneven surfaces will require remedial action.
- o Uniform in Colour To prevent show through equalise colour.
- Dry in Depth Tested with good moisture meter.
- o Keyed With coarse, dry sandpaper.

RECOMMENDED ADHESIVE	APPLY TO	METHOD OF JOINT	PRODUCT INFORMATION	WHERE TO BUY
Beeline Heavy Grade	Paste the Wall	Overlap by 20mm and splice	 Wallpaper glue for all weights of wallcoverings. This ready mixed wallcovering adhesive has an easy dilution guide to meet the exact requirements of the particular wallpaper. High initial tack, plus excellent slip properties that enable easy hanging. Added PVA which provides a super strong bond. 	Decorating Centre Online.co.uk
